Attn David Hance

Dear Mr. Hance,

The Buncombe County Republican Party is formally asking for an investigation into the drinking water quality of Eden Glenn Mobile Home Park located at 53 New Covenant Rd Weaverville, NC. It is owned by Mr. David Young.

We are asking for this investigation after seeing a WLOS News 13 report linked here http://wlos.com/shared/newsroom/top_stories/videos/wlos_vid_2345.shtml

Included in your investigation, we are asking NCDENR to look at the small water treatment plant for the sewage accumulated from the park. The sewage treatment plant is only 4 feet away from a stream. If flooding occurs, raw sewage could flow in to the stream.

We are also asking for authorities, (NCDENR), to investigate the water metering company associated with the park as seen in the WLOS news report.

The BCGOP feels the people of Eden Glenn Mobile Home Park are in danger as other reports to the Buncombe County Health Department have gone unanswered.

Please contact us at 828-216-0147 or email us at bcgopchairman@charter.net if you have any questions and we look forward to your findings.

Sincerely,
Chad Nesbitt
Chairman - BCGOP
